ARE YOU LOOKING FOR A COMPUTER SCIENTIST WHO KNOWS HOW TO THINK OUTSIDE THE BOX? LOOK NO FURTHER!

Hiring me means:

- Bringing into your team a motivated guy who will inspire his colleagues.
- Sleeping soundly because even in your absence, all your projects will be managed with rigour.
- Taking nothing for granted and always staying in “optimization” mode.
- Having a proud employee who loves his job and talks about it to everyone!

Being hired by you means:

- Working with the best in the field.
- Putting my knowledge and skills to work for a company that shares the same mission as I do.
- Coming home happy every evening because I contributed to exciting and challenging projects.
- But above all, it’s my ambition!

WHEN DO WE MEET?
